

# MARINE CONSULTANCY

## RENEWABLE ENERGY AND SHIPPING

At Scott Marine Consultants we pride ourselves in supporting clients in delivering challenging projects. With marine projects becoming ever larger and more challenging we understand the importance of expert advice delivered in a way that maximises value and efficiency.

### Who We Are

Established in 2020 we are a specialist marine consultancy of **engineers, naval architects** and **operations specialists** providing expertise tailored to projects and organisations in the renewable energy and shipping sectors.

Our clients include, Offshore Windfarm Developers, Consultancies, Lenders Technical Advisers, Innovators and Installation Contractors.

### Why Choose Us

#### Experience

Our consultants have experience in a broad range of aspects of marine consultancy from project feasibility, to installation engineering and attendance offshore.

#### Flexibility

Every project is different which is why we work closely with our clients to develop strategies and solutions that are specifically designed to address their individual requirements.

#### Quality

Quality is at the forefront of everything we do. We believe that delivering exceptional results requires attention to detail, expertise, and a commitment to excellence.
